

### ANSMANN Lithium Coin cell CR1025

- New range with improved quality, primarily in high-current applications
- Smaller blister card to save space on the blister pack display
- "ANSMANN" logo on the coin cell
- Very high energy density and low self-discharge
- Extremely high capacity of 30 mAh
- Temperature range from -20 - 60 °C
- Minimum shelf life: 10 years
- Special battery, ideally suited for clocks, pocket calculators, key-less access systems / radio keys (such as car keys), personal organisers, electronic toys, body-care devices, garage door openers, digital thermometers, blood pressure measurement devices and many other electronic devices
